Masterful Design

Helsyn Flatline – the ultimate statement in design is now available. A pure flat screen, one continuous piece of glass from edge to edge. Subtle. Stunning. Mounted it sits just 3mm from the wall for a truly integrated look.

Finish options to suit your décor include Winter White and Silhouette Black. An optional Stainless Steel finish is available in either mirror polished or brushed, the choice is yours.

The screen is supplied with a backbox which can be pre-installed during construction of a new home or alternatively the screen can be installed into virtually any finished gyprock wall. Once fitted, the screen is controlled by an intuitive remote control with access to on-screen TV guide, program reminders, and much much more.

The TV even has speakers which are built into the frame of the screen and fire downwards, allowing the sound out through the 3mm gap between the glass and the wall surface.

Designed in Australia, Helsyn brings a new level of fit and finish to the world right from our very own doorstep.
